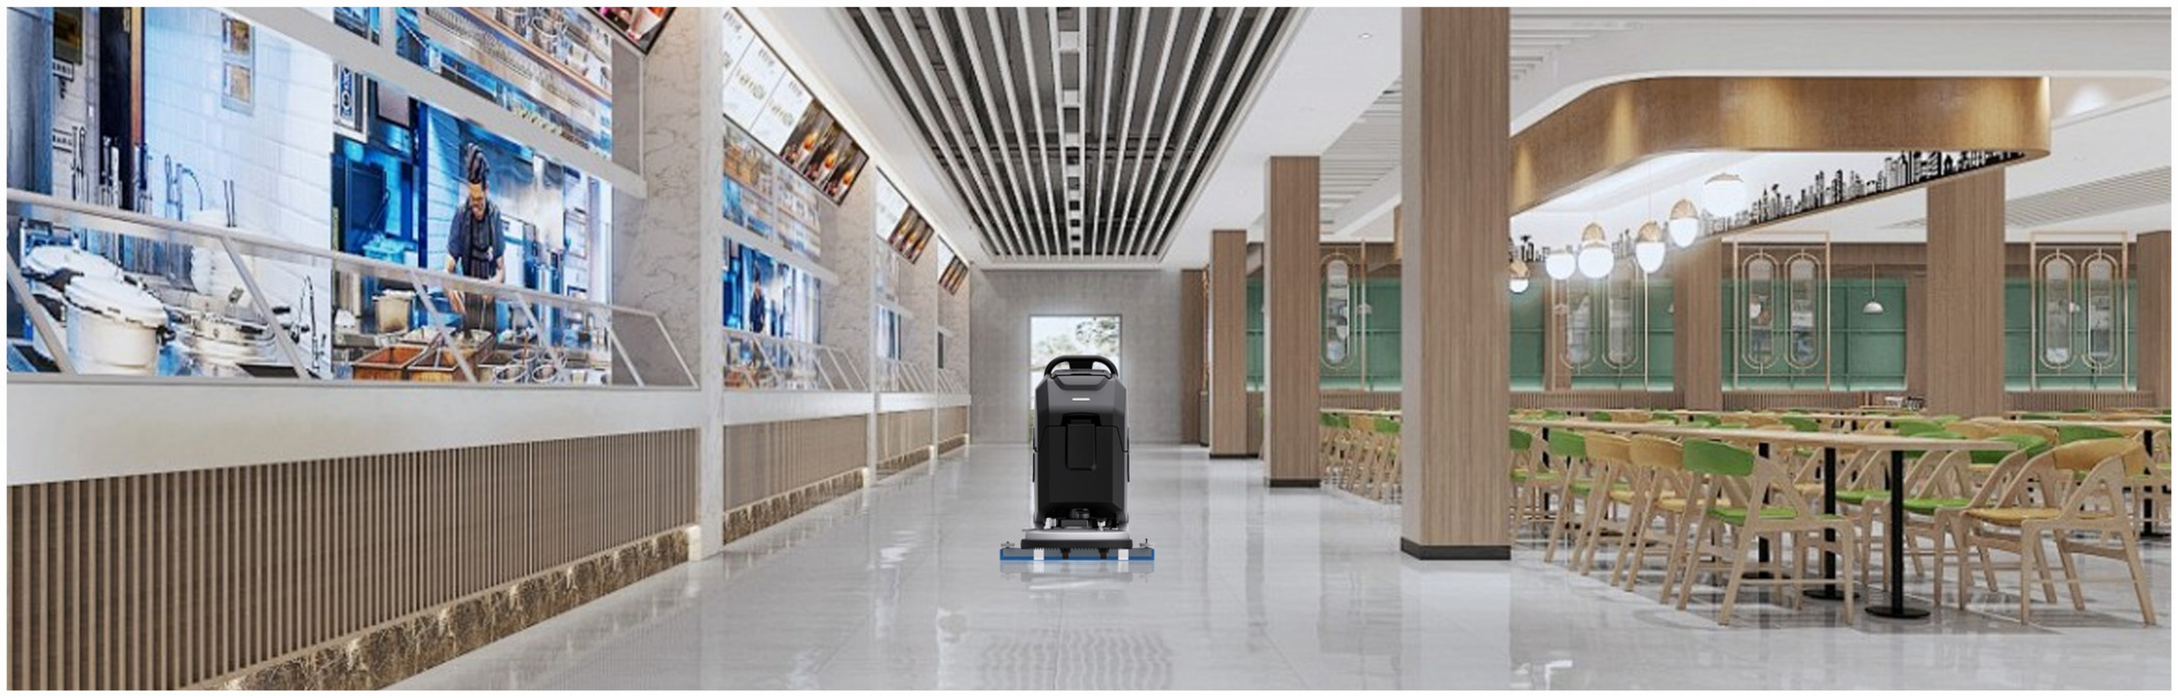
D5

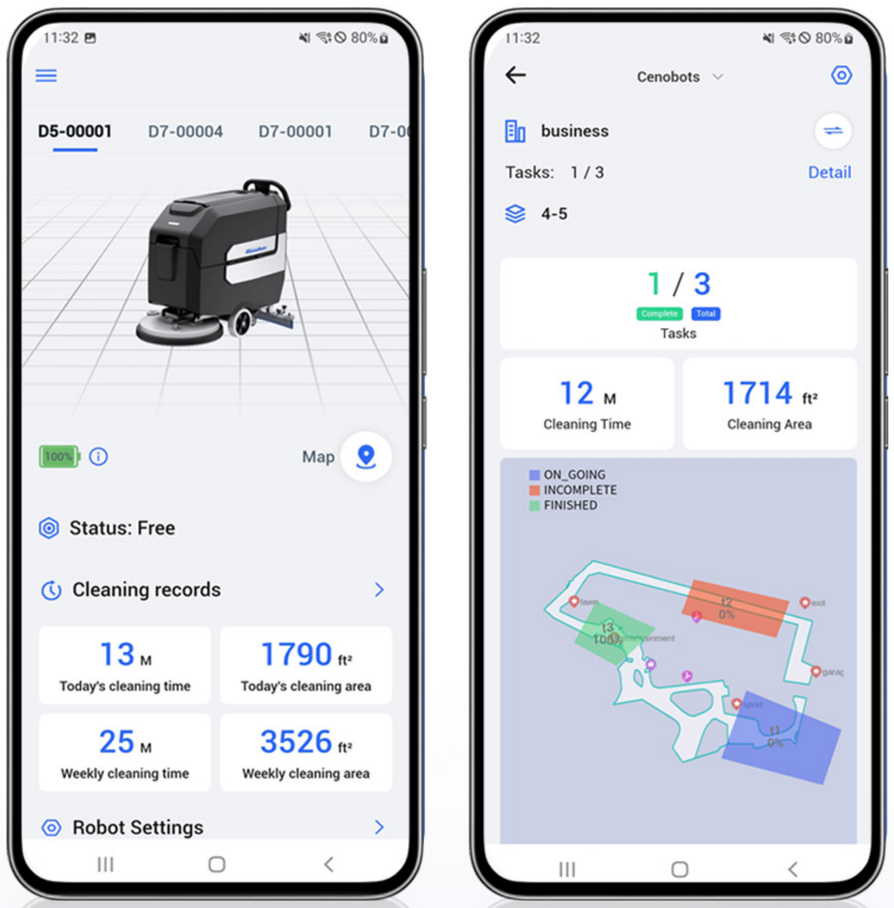
Walk-behind Scrubber

Experience the future of floor cleaning with digital scrubbers.



Flexible and Productive Solution

The D5 boasts high productivity with a 20-inch (510mm) cleaning width and a 13.7-gallon (52L) solution tank, making it suitable for small to medium areas. The squeegee, measuring 30.7 inches (780 mm), enables easy navigation through different doorways without the need to remove it, making it perfect for settings like hospitals, schools, and supermarkets.



Digital Management

Through the CenoBots App, users can access a visual map that displays the completion status of cleaning tasks for the machines. This allows for easy tracking of cleaning progress and ensures efficient management of cleaning operations.

Overview

A：One- Click Magnetic Brush System

The magnetic brush feature allows for easy one-click brush removal and installation, making operation incredibly convenient and efficient.

C：30s Blade Replacement

The squeegee features a one-click pull-out design for quick blade replacement in just 30 seconds. This user-friendly system ensures consistent operation, helping to achieve uniform floor cleanliness, even for inexperienced users.

B：Li-ion Battery

Equipped with lithium battery technology, the device is more environmentally friendly and charges quickly, reaching full capacity in just 3.5 hours, enhancing convenience and efficiency.

D：Ergonomic Control Panel

The D5 features an ergonomic control panel with a user-friendly touchscreen interface, ensuring ease of use and better adherence to ergonomic principles.

*Lifetime free OTA updates are available for the machine.
